DISCLOSURE OF INFORMATION

This Disclosure provides you with information regarding your Group Dental Benefits. It is intended to clarify and to provide additional information about your plan. The Group Certificate provides detailed provisions of coverage including any limitations or restrictions that apply. **Read your certificate carefully.**

What is the Sun Life Dental Plan?

The Sun Life Dental Policy is a group dental insurance program provided by us that uses a nationwide network of Dentists. Sun Life strives to provide the most comprehensive network of Dentists possible in all areas of the country. The Sun Life Dental Network includes dentists that are contracted with Dental Health Alliance L.L.C.® (DHA®), a Sun Life affiliate, and dentists that are contracted with other, unaffiliated, dental networks. In order to ensure that quality standards are met, DHA® uses a National Committee for Quality Assurance (NCQA) accredited organization to conduct credentials verification for its Dentists. The other dental networks that Sun Life accesses also have credentialing policies and procedures that apply to their contracted Dentists. All Dentists have the right to participate in the DHA® network provided all credentialing criteria are met and they are willing to meet the terms and conditions for participation. The other dental networks that Sun Life accesses have their own criteria for accepting Dentists into their networks.

Key features of this plan include:

- Insureds may receive services from providers of their choice; and
- Insureds may receive a greater benefit for dental services when choosing Participating Providers.

How do you find a provider in the network?

You may obtain provider directories by:

- contacting our Customer Service Department at 800-247-6875; or
- viewing the list of Participating Providers on our website at www.sunlife.com/findadentist.

It is possible that a provider may have left or joined the network since the publishing of the directory. You may contact Sun Life's Customer Service Department directly to report a directory inaccuracy.

How are providers in the network compensated?

Reimbursements to dental providers are based on various factors. When covered services are provided by a Participating Provider, charges are on a contracted fee-for-service basis. Whether a Participating Provider's contracted fees apply to non-covered services depends upon any applicable state law and, in some cases, whether the Participating Provider has elected to offer network fees on non-covered services.

The Participating Provider is not given an incentive or bonus that encourages withholding service or that influences referrals to specialists. If you want additional information about how Participating Providers are compensated, please contact us.

Is the provider allowed to discuss all Treatment options with you?

The Participating Provider contracts do not include "gag" clauses. The contracts do not prohibit the provider from discussing, with an Insured:

- the available Treatment options and services; or
- the compensation methodology.

What is a Pre-Determination of Benefits?

A Pre-Determination of Benefits allows an Insured to know, prior to receiving Treatment, the amount of benefits that may be payable. We recommend a Pre-Determination of Benefits for some services. These are described in the "Covered Dental Benefits" section of the Certificate. We will notify you and the Dentist of the benefits payable based upon the Course of Treatment that was submitted.

Pre-Determination of Benefits is not a guarantee of benefits under your dental Policy. You or your Dependents must meet the eligibility requirements and services must be Covered Dental Expenses for benefits to be payable. In addition, claims are processed in the order in which they are received. Therefore, the service for which an Insured received a Pre-Determination of Benefits may not be payable.

DISCLOSURE OF INFORMATION

if the Maximum Benefit was reached since the Pre-Determination was processed. **Please be sure to read the Certificate carefully to ensure coverage is provided under your Policy.**

Are claims subject to retrospective review?

Certain claims are subject to retrospective review to determine whether the supplies or services provided are Dentally Necessary as required by the Policy. Other than expenses for coverage that is required by state law (or for bleaching of teeth, if covered by your plan), expenses for Treatment or supplies that are not Dentally Necessary or are not within generally accepted standards of dental Treatment are not covered by the Policy.

What are your benefits?

The "Benefit Highlights" and "Covered Dental Benefits" sections of the Certificate contain information regarding benefits including benefit maximums and limitations. The "Benefit Highlights" section outlines the benefit levels for your Plan. It also includes information about your responsibility for payment related to coinsurance, deductibles and annual limits. In determining the amount of benefits payable, consideration will be given to alternate dental Treatment that will accomplish a professionally satisfactory result. If the Insured and the Dentist agree to a more costly method of Treatment, the excess amount will not be paid by us. If services are not covered by the Policy, you are responsible for full payment.

The "Exclusions" section of the Certificate contains information about charges for which no benefits are paid. Benefits are payable for Dentally Necessary Treatment, subject to all of the provisions of the Policy.

The following example illustrates benefit payments using both Participating and Non-Participating Providers. Your plan may differ in deductible and coinsurance levels. However, this example demonstrates the impact on benefits of using Non-Participating Providers.

This example assumes no cash deductible for Type I Dental Services; 90% coinsurance for Network Expenses rendered by a Participating Provider; and 90% coinsurance for Non-Network Expenses rendered by a Non-Participating Provider.

	Network Expenses (Participating Provider)	Non-Network Expenses (Non-Participating Provider)

Cash Deductible	None	None
Coinsurance Level Network Expense: 90% of Allowable Charge for Participating Providers (\$105)	\$105 (Allowable Charge) <u>X 90%</u> (Coinsurance Level) \$94.50

DISCLOSURE OF INFORMATION

Is your information kept confidential?

Dental records and other patient information will be released only upon written authorization from you. Such information may only be used *by us* to determine eligibility for benefits and to administer the Policy. We maintain physical, electronic, and procedural safeguards to protect the confidentiality of information provided to us.

What are our responsibilities regarding your rights?

We are committed to treating all our Insureds in a manner that respects their rights under the Policy. We expect the providers of care to treat our Insureds as they would any other patient in terms of care provided, accommodations, and timeliness of access to care.

The Sun Life Dental Plan does, sometimes, solicit information on Insured satisfaction.

6. COVERED DENTAL BENEFITS

What is the Dental Benefit?

We will pay a Dental Benefit if an Insured Incurs Covered Dental Expenses for any of the services shown below. Payments for Covered Dental Expenses are based on the Allowable Charge and type of service – Type I, Type II, Type III or Type IV. The percentage payable for each type of service is shown in the Benefit Highlights. Dental Benefits are only available for Covered Dental Expenses that are Incurred while an Insured is covered under the Policy.

Are you required to get a Pre-Determination of Benefits?

We recommend a Pre-Determination of Benefits for:

- extensive Treatment such as root canal therapy, crowns, bridges and periodontal Treatment, if those services are included under the Policy; or
- any Treatment for which charges will exceed \$500.

We recommend that the Course of Treatment be submitted to us for review before Treatment begins. We will notify you and the Dentist of the benefits payable based upon the Course of Treatment. In determining the amount of benefits payable, we will consider alternate dental Treatment that will, as determined by us, accomplish a professionally satisfactory result. If you and the Dentist agree to a more costly method of Treatment, than that determined by us, the excess amount will not be paid by us.

Pre-Determination of Benefits is not required. If you do not submit a Pre-Determination of Benefits the amount of benefits payable by us is not affected.

What is the alternate dental Treatment benefit?

If we determine that alternate procedures, services or Courses of Treatment can be performed to correct a dental condition, payment will be considered for the least costly procedure which we determine will produce a professionally satisfactory result. No alternate dental Treatment benefit is payable for any service that is not a Covered Dental Expense.

Under what conditions are benefits payable?

Our payment of benefits is subject to all the terms and conditions of the Policy. We will not pay benefits for any one item of expense under more than one provision of the Policy. All related dental expenses will be considered as part of the most comprehensive procedure and only the benefit for that procedure will be payable.

What are providers entitled to collect from you?

If an Insured uses the services of a Participating Provider for Covered Dental Expenses, those providers are entitled to collect from you the difference between the amount of benefits payable by us and the lesser of the provider's billed charge or the Allowable Charge. If we pay a benefit for an alternate dental Treatment, a Participating Provider is entitled to collect from you the difference between the amount of benefits payable by us and the lesser of the provider's billed charge or the Allowable Charge for the service provided.

If an Insured uses the services of a Non-Participating Provider, that provider is entitled to collect from you the difference between the amount of benefits payable by us and the provider's billed charge.

What benefits are payable for Type I, Type II and Type III Covered Dental Expenses?

If during a Calendar Year an Insured Incurs Covered Dental Expenses in excess of the Deductible, the benefit payable will be:

- equal to the applicable percentage shown in the Benefit Highlights;
- subject to any Benefit Waiting Periods;
- limited to the Calendar Year Maximum Benefit; and
- limited to the Rollover Amount in an Insured's Maximum Benefit Rollover Account.

6. COVERED DENTAL BENEFITS

What benefits are payable for Type IV Covered Dental Expenses?

The benefit payable will be:

- equal to the percentage shown in the Benefit Highlights for Type IV Covered Dental Expenses;
- subject to any Benefit Waiting Periods; and
- limited to the Lifetime Maximum Benefit.

The initial benefit payable will:

- be determined by the amount of Type IV Covered Dental Expenses for the diagnosis and/or placement of the bands or appliance; and
- not exceed 25% of the total benefit.

Any remaining benefit for Type IV Covered Dental Expenses Incurred for remaining Treatment will be payable on a quarterly payment schedule as long as Treatment continues and insurance is in force. In no event will the total benefit be payable in one sum at the start of Treatment.

What is the Deductible?

The Per Person Deductible is the amount of Covered Dental Expenses that an Insured must incur in a Calendar Year before any benefits are payable. The Per Person Deductible per Calendar Year for each type of Covered Dental Expense is shown in the Benefit Highlights. The amounts to be applied to meet the Deductible must be charges for Covered Dental Expenses.

Amounts applied for your family will not exceed the Maximum Family Deductible shown in the Benefit Highlights in any Calendar Year, even if the Per Person Deductible has not been met.

The Maximum Family Deductible shown in the Benefit Highlights is the number of Insureds in your family who must each incur Covered Dental Expenses in excess of the Per Person Deductible. Once the Maximum Family Deductible is met, Covered Dental Expenses are payable even if the Per Person Deductible has not been met.

If an Insured incurs Covered Dental Expenses for Type I Services, those expenses are not subject to the Per Person Deductible.

What is the Calendar Year Maximum Benefit?

The Per Person Maximum Benefit in each Calendar Year for Type I, II and III Dental Expenses combined is shown in the Benefit Highlights. The Calendar Year Maximum Benefit applies to all periods of time the Insured is insured during a Calendar Year regardless of any interruptions in coverage for this insurance. This Maximum Benefit applies to all Covered Dental Expenses.

What is the Calendar Year Maximum Benefit Rollover (RollMax)?

The Per Person Maximum Benefit Rollover in each Calendar Year for Type I, Type II and Type III expenses combined is shown in the Benefit Highlights. An Insured may be eligible for a rollover of a portion of an Insured's unused Calendar Year Maximum Benefit for Type I, Type II and Type III, as follows:

If an Insured submits at least 1 claim for Covered Dental Expenses during a Calendar Year and, in that Calendar Year, receives benefits that are in excess of any deductible or coinsurance, and that, in total, do not exceed the Rollover Limit, an Insured may be entitled to a Rollover Amount.

Rollover Amounts can accumulate and are saved up to the Account Maximum shown in the Benefit Highlights. If an Insured reaches the Calendar Year Maximum Benefit for Type I, Type II and Type III expenses, we may pay additional benefits above the Calendar Year Maximum Benefit up to the amount saved in an Insured's Account. The amount of the Rollover Amount stored in an Insured's Account may not be greater than the Account Maximum.

6. COVERED DENTAL BENEFITS

The Maximum Benefit Rollover applies to all periods of time an Insured is covered under the Policy during a Calendar Year. An Insured's Account Maximum may be eliminated, and the accumulated Rollover Amount lost, if an Insured has a break in coverage of more than 90 days, for any reason.

If the Policy first becomes effective in October, November or December, this rollover provision will not apply until January 1 of the first full Calendar Year. And, if the effective date of an Insured's dental coverage is in October, November or December, this provision will not apply to an Insured until January 1 of the next full Calendar Year. In either case, only claims incurred on or after January 1 will count toward the Rollover Limit. Rollover Amounts will not be applied to an Insured's Account Maximum until the Calendar Year that starts 1 year from the date this provision first applies.

If charges for any Covered Dental Expenses are not payable for an Insured during the Benefit Waiting Periods for certain services, this provision will not apply to an Insured until the end of such period. If such period ends within the 3 months prior to the start of the Policy's next Calendar Year, this rollover provision will not apply to an Insured until the next Calendar Year, and:

- only claims incurred on or after the start of the next Calendar Year will count toward the Rollover Limit; and
- Rollover Amounts will not be applied to an Insured's Account until the Calendar Year that starts 1 year from the date this provision first applies.

What is the Lifetime Maximum Benefit?

The Per Person Lifetime Maximum Benefit payable for any Insured who Incurs Type IV expenses is shown in the Benefit Highlights.

Does your Treatment have to have a favorable prognosis?

Benefits will be considered only for Treatment that we determine has a reasonably favorable prognosis of correcting the Insured's dental condition for a period of at least 3 years.

Are benefits payable for temporary work?

Benefits for temporary dental service including temporary prosthetics will be considered a part of the final dental service. By temporary prosthetics we mean any prosthetic inserted and used by an Insured for fewer than 12 months. Any prosthetic inserted and used by an Insured for at least 12 months will be considered permanent in nature.

Are any benefits payable after your insurance terminates?

No benefits are available after an Insured's insurance ends except that benefits are available:

- for procedures requiring multiple visits if the Treatment is started while an Insured is covered under the Policy and completed within 30 days after the Insured's insurance ends. Treatment is considered started when the tooth is irrevocably altered. This extension is limited to crowns, fixed bridges, inlays, onlays, full dentures, partial dentures and root canal therapy if such services are included under the Policy; and
- until the end of the calendar year quarter in which insurance ends, for Orthodontic Treatment Incurred while covered under the Policy if such services are included under the Policy.

A pre-determination for any Course of Treatment is not Treatment started. No benefits are payable if your Employer cancels the Policy and replaces it with another plan of group dental coverage within 30 days of the date the Policy ends.

What happens if you were covered under the Employer's Alternate Plan?

If an Insured was covered under the Employer's Alternate Plan:

- the Maximum Benefit and any other limits on amounts or time limitations on benefits payable under the Policy shall be reduced by any corresponding amounts or limitations previously paid or satisfied, whether in whole or in part, under the terms of the Alternate Plan.
- Covered Dental Expenses that are used to satisfy the Alternate Plan's deductible provisions will be applied toward the satisfaction of the deductible provisions of the Policy.

- you have possession or access of the child under a court order; or
- you are not entitled to access or possession of the child and are required by the court to pay child support.

We must receive written notice attached to the claim when it is submitted, which states that all benefits paid must be paid directly to the Texas Health and Human Services Commission.

COORDINATION OF BENEFITS

What is Coordination of Benefits?

If an Insured is covered under more than one dental plan, the benefits from other Plans will be taken into account. This may require a reduction in benefits under the Policy, so that the combined benefits will not be more than the Allowable Expenses of the Policy and any other Plan.

What is a Plan?

For purpose of Coordination of Benefits (COB), a Plan is any of the following that provides benefits or services for dental care or Treatment:

- group, blanket, or franchise accident and health insurance policies, excluding disability income protection coverage;
- individual and group health maintenance organization evidences of coverage;
- individual accident and health insurance policies;
- individual and group preferred provider benefit plans and exclusive provider benefit plans;
- group insurance contracts, individual insurance contracts and subscriber contracts that pay or reimburse for the cost of dental care;
- dental care components of individual and group long-term care contracts;
- limited benefit coverage that is not issued to supplement individual or group in-force policies;
- uninsured arrangements of group or group-type coverage;
- the medical benefits coverage in automobile insurance contracts; and
- Medicare or other governmental benefits, as permitted by law.

8. CLAIM PROVISIONS

If separate contracts are used to provide coordinated coverage for members of a group, the separate contracts are considered parts of the same Plan and there is no COB among those separate contracts.

Plan does not include any of the following:

- disability income protection coverage;
- the Texas Health Insurance Pool;
- workers' compensation insurance coverage;
- hospital confinement indemnity coverage or other fixed indemnity coverage;
- specified disease coverage;
- supplemental benefit coverage;
- accident only coverage;
- specified accident coverage;
- school accident-type coverages that cover students for accidents only, including athletic injuries, either on a "24-hour" or a "to and from school" basis;
- benefits provided in long-term care insurance contracts for non-medical services, for example, personal care, adult day care, homemaker services, assistance with activities of daily living, respite care, and custodial care or for contracts that pay a fixed daily benefit without regard to expenses incurred or the receipt of services;
- Medicare supplement policies;
- a state plan under Medicaid;
- a governmental plan that, by law, provides benefits that are in excess of those of any private insurance plan; or
- other nongovernmental plan; or
- an individual accident and health insurance policy that is designed to fully integrate with other policies through a variable deductible.

Each contract for coverage shown above is a separate Plan. If a Plan has two parts and COB rules apply only to one of the two, each of the parts is treated as a separate Plan.

What is an Allowable Expense?

For purpose of COB, an Allowable Expense means a dental care expense, including deductibles, coinsurance and copayments, that is covered at least in part by any Plan covering the person. When a Plan provides benefits in the form of services, the reasonable cash value of each service will be considered an Allowable Expense and a benefit paid. An expense that is not covered by any Plan covering the person is not an Allowable Expense. In addition, any expense that a provider by law or in accordance with a contractual agreement is prohibited from charging an Insured is not an Allowable Expense.

How are benefits computed under COB?

In a Calendar Year, the Policy will always either pay its regular benefits in full, or it will pay a reduced amount which, when added to the benefits payable and the cash value of any services provided by the other Plans, will equal 100% of the Allowable Expenses Incurred by the Insured for whom claim is being made.

Are there any limits on the use of COB?

In computing the benefits under the Policy, the benefits under any other Plan will not be included if:

- the other Plan contains a COB provision that:
 - provides for coordinating its benefits with those of the Policy; and
 - under its terms, would compute its benefits after we compute the benefits under the Policy; and
- the rules shown in the "How are plans' benefits determined" section require that the Policy's benefits are computed before the other Plan computes its benefits.

8. CLAIM PROVISIONS

How are plans' benefits determined?

To determine whether we will reduce the benefit we would have paid if COB had not been included, it is necessary to determine the order in which the various Plans will pay benefits. This will be determined as follows, using the first of the following rules that apply:

- a Plan with no COB provision will be considered to pay its benefits before a Plan that contains such a provision, unless the provisions of both Plans state that the Plan with the COB provision pays its benefits before a Plan with no COB.
- a Plan that covers a person other than as a dependent will be considered to pay its benefits before a Plan that covers that person as a dependent. However, if the person is a Medicare beneficiary and, as a result of federal law, Medicare pays its benefits secondary to the Plan covering the person as a dependent and primary to the Plan covering the person as other than a dependent, then the order of benefits between the two Plans is reversed so the other Plan pays its benefits before the plan covering the person other than as a dependent.
- Unless there is a court decree stating otherwise, plans covering a dependent child must determine the order of benefits using the following rules that apply:
 - For a dependent child whose parents are married or are living together, whether or not they have ever been married, the Plan of the parent whose birthday falls earlier in the calendar year will be considered to pay its benefits before a Plan of the parent whose birthday occurs later in the calendar year. If both parents have the same birthday, the Plan that has covered the parent the longest will be considered to pay its benefits before the Plan that covered the parent the shorter time period.
 - If the parents of a dependent child are separated, divorced, or not living together, whether or not they have ever been married, the following rules apply:
 - if there is a court decree that sets responsibility for the child's dental care expenses or dental care coverage and the Plan of that parent has actual knowledge of those terms, a Plan that covers the child as a dependent of the parent with such responsibility will be considered to pay its benefits before any other Plan that covers the child as a dependent child. This rule applies to plan years commencing after the Plan is given notice of the court decree.
 - if a court decree states that the parents have joint custody without specifying that one parent has responsibility for the dental care expenses or dental care coverage of the dependent child, benefits will be determined according to the birthday rule described above.
 - if there is no court decree allocating responsibility for the dependent child's dental care expenses or dental care coverage, the order of benefits for the child are as follows:
 - the Plan covering the custodial parent;
 - the Plan covering the custodial parent's spouse;
 - the Plan covering the noncustodial parent; then
 - the Plan covering the noncustodial parent's spouse.
 - For a dependent child covered by more than one Plan of individuals who are not the parents of the child, the birthday rule described above will be applied as if those individuals were the parents of the child.
 - For a dependent child who has coverage under either or both parents' Plans and has his or her own coverage as a dependent under a spouse's Plan, the Plan under which the person has been covered for the longer period of time will be considered to pay its benefits before the other.
 - In the event the dependent child's coverage under the spouse's Plan began on the same date as the dependent child's coverage under either or both parents' Plans, the order of benefits must be determined by applying the birthday rule described above, considering the birthdays of the dependent child's parent(s) and the dependent child's spouse.
- Where the rules above do not establish the order of payment, the Plan under which the person has been covered for the longer period of time will be considered to pay its benefits before the other. However:
 - a Plan that covers a person as a laid-off or retired employee, or as a dependent of such a person, will be considered to pay its benefits after a Plan that covers such person as other than a laid-off or retired employee, or as a dependent of such a person. If the other Plan does not contain this rule, then this rule shall not apply; and

8. CLAIM PROVISIONS

- if a person whose coverage is provided under COBRA or continuation provided by state or other federal continuation law is covered under another Plan, the other Plan will be considered to pay its benefits before the Plan providing coverage under COBRA, state or other federal continuation law. If the other Plan does not contain this rule, then this rule shall not apply.
- If the preceding rules do not determine the order of benefits, the Allowable Expenses must be shared equally between the Plans meeting the definition of Plan. In addition, this Plan will not pay more than it would have paid if it would have been considered to pay its benefits before the other Plan.

What are our rights under COB?

We have the right to release or obtain any information and make or recover any payments we consider necessary in order to administer this provision.

We may, without the consent of or notice to any person, release to or obtain from any other insurance company, organization or person, any information, with respect to any person, that may be needed to apply the terms of the COB provision or any similar provision of any other Plan.

Any person who claims benefits under this Policy must furnish to us any information that we may need to apply the COB provision. For the purposes of this section only, any person who is insured under this Policy will be deemed to have authorized us to secure the information necessary to apply the terms of this provision.

What if a Plan makes a payment that should have been made by us?

If any payment that should have been made under this Policy according to the COB provision is made under any other Plan, we have the right to pay that amount to the organization that made such payment. That amount will then be treated as though it were a benefit paid under this Policy. We will not have to pay that amount again. The term "payment made" includes providing benefits in the form of services, in which case "payment made" means the reasonable cash value of the benefits provided in the form of services.

What if we overpay a claim?

If a payment made under the Policy is in excess of the total amount required to satisfy the intent of the COB provision, we have the right to recover any excess amount from one or more of the persons it has paid or for whom it has paid. Or, we may recover the excess from any other person or organization that may be responsible for the benefits or services provided for an Insured. The amount of the payments made includes the reasonable cash value of any benefits provided in the form of services.

9. INSURANCE CONTINUATION

Are there any conditions under which your Employer can continue your insurance?

While the Policy is in force and subject to the conditions stated in the Policy, your Employer may continue your insurance that was in force on the date immediately before the date you ceased to be Actively at Work by paying the required premium to us for any of the following reasons and durations:

While the Policy is in force, you may be eligible to continue your insurance coverage pursuant to the Uniformed Services Employment and Reemployment Rights Act (USERRA). You should contact your Employer for more details.

Are there any conditions under which you can continue your insurance?

Federal law requires certain employers to offer continuation coverage to Employees for a specified period of time upon termination of employment or reduction of work hours for any reason other than gross misconduct. You should contact your Employer to find out whether or not this requirement applies. Your Employer will advise you of your rights to continuation coverage, if any, and the cost.

If this requirement does apply, you must elect to continue coverage within 60 days from your Family Status Change or notification of rights by your Employer, whichever is later.

You must pay the required premium for continuation coverage directly to your Employer. We are not responsible for determining who is eligible for continuation coverage. If the Policy contains a continuance provision that is mandated by a state law, Insureds eligible under that provision will have the choice of electing:

- the state continuance coverage and then the federal continuance coverage, if allowed by state law; or
- the federal continuance alone.

What happens to your Deductible and Maximum Benefit if you were covered under the Prior Plan?

For the Calendar Year in which the Policy becomes effective, we will reduce an Insured's Deductible and Maximum Benefit under the Policy by any amount of Covered Dental Expenses that are Incurred in the Calendar Year in which the Policy becomes effective and applied toward the Prior Plan's deductible for such year.

An Insured's Deductible under the Policy cannot be reduced unless we receive the deductible and maximum benefit information of the Prior Plan and subtract any reductions made to the Prior Plan's maximum benefit from the Maximum Benefit of the Policy.

10. CONTINUITY OF COVERAGE

The Lifetime Maximum Benefit payable under the Policy for any Insured who Incurs Type IV Covered Dental Expenses under the Prior Plan will be reduced by the amount of any benefits paid and/or payable under the Prior Plan provided:
